Your trip day to day

DAY 1 : THE BEAUTIFUL LONG ROUTES OF THE PONTEIL CLIFF

The guide welcomes you and checks your equipment. We'll assess everyone's skills to choose the most suitable route at the Falaise du Ponteil.

Facing west, it's a pleasant place to climb in the shade in the morning. The limestone is very colourful and rather athletic. The cliff is made up of successive roofs, making it possible to climb even when it's raining. From the first belay, the view over the Durance valley is breathtaking. We'll choose our objective from an incredible choice of routes ranging from 150m to 300m. Abseil down.

Meal and overnight in a gîte.

DAY 2: HIGH MOUNTAIN ATMOSPHERE IN AILEFROIDE

New day, new crag, we'll head to Ailefroide where more than 300 equipped routes will give us the choice of those best suited to your level. The glacier-polished granite will give you the opportunity to practise your slab climbing techniques. As you rise above the foliage of the trees, a characteristic mountain scenery appears with the larch forest just below and the white glacier and high peaks looming all around.

Return mid-afternoon and visit the charming mountain village of Vallouise for those who wish.

The choice of routes will be made on the basis of your technical level as a second and according to your requirements, particularly if you wish to climb lead.

If necessary, we'll go over the different types of roping and belaying with a special focus on the quality of the belay that must be adapted regarding the equipment available. Abseiling and self jamming techniques will also be covered. The guide will give you tips on how to organise the equipment on your harness. We'll agree on how to communicate within the roped party to give clear instructions. For safety reasons and to optimise your learning, we'll be using walkie-talkies. Climbing : special warning

Rock climbing, as all mountain activities have some level of risk particularly falling rocks, falling to the ground (failure to belay), etc.

To reduce the hazards that they are exposed to, climbers must wear their helmet at the foot of the cliffs, while climbing and belaying, and follow the safety instructions given by the instructor.

You must be aware of these risks and accept them when booking.

Multi-pitch climbing is a more exposed sport than cliff climbing. In addition to the risk of falling or falling rocks, in the event of bad weather or injury, the retreat can be tricky. That's why you need to be at the right level for the course. Rigour and attention to detail are essential.
